ZEEHO

AEE6

LIFE
AMPLIFIED

■ DARE TO
TAKE
YOUR
CHANCES

INTRODUCTION TO AE6

- Addressing the complex world of urban youth, AE6 dimensions are smaller than AE8, as well as superior to the existing electric motorcycles in both performance and intelligence.

- The ZEEHO logo is transliterated from the Chinese brand name “极核(Jihe)” which means “extreme” and “core”.
- The “double E” symbol implies the brand attitude to break the rules, to be different without compromise.

ZEEHO

ZEEHO ORIGINAL URBAN DESIGN

1 Max. speed

>80km/h

2 0-50km/h acceleration

4.6s

3 Charging time (520W)

2.3hr/4.2hr
(20%-80%) (0-100%)

4 Peak power

5.5kW

LIFE AMPLIFIED LIFE AMPLIFIED LIFE AMPLIFIED LIFE AMPLIFIED

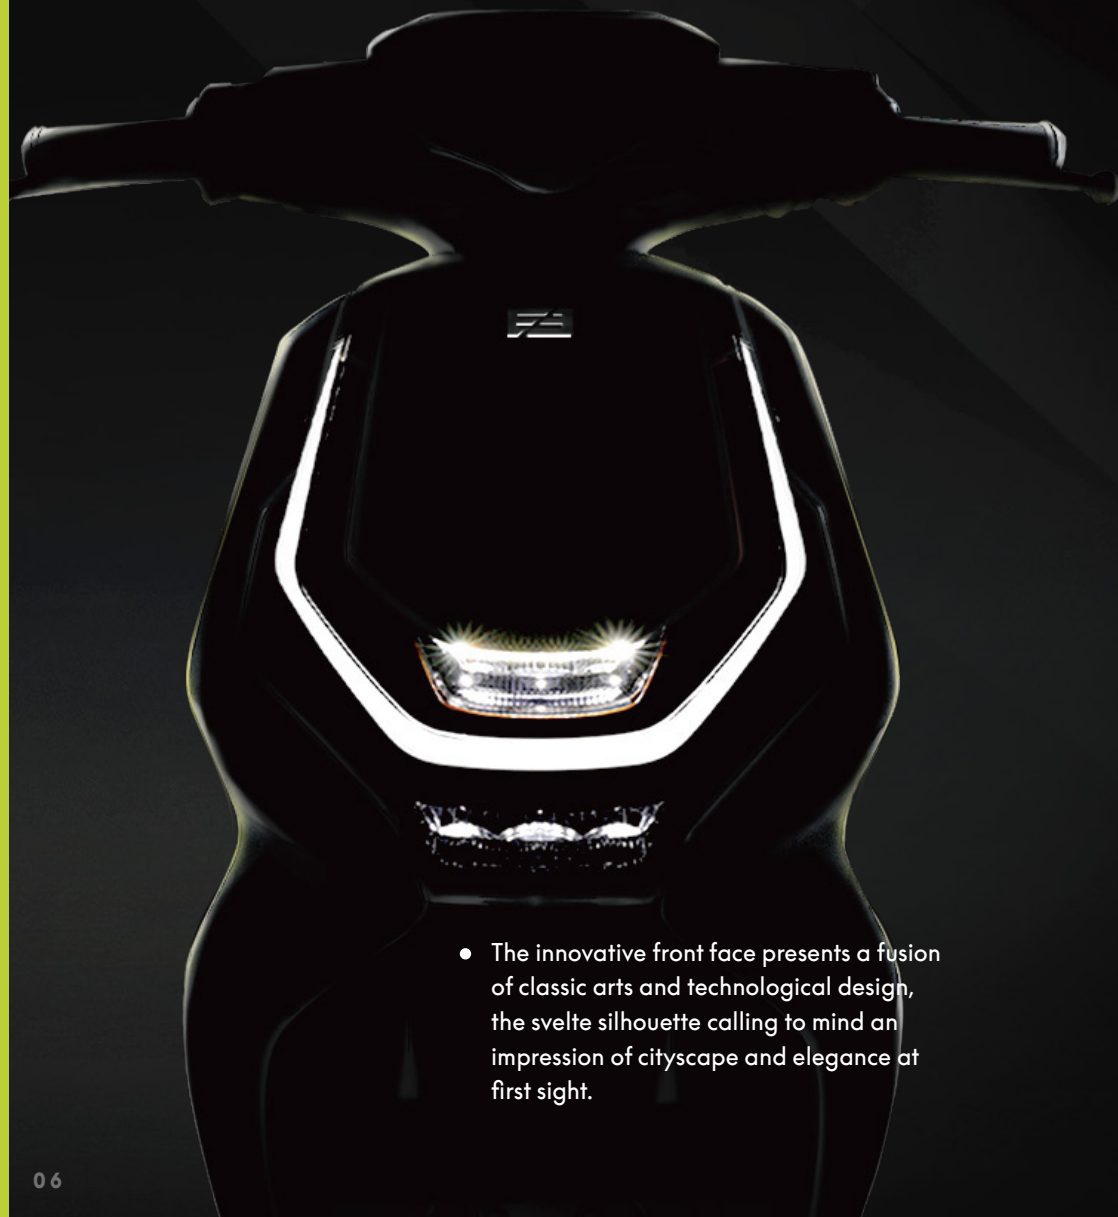

- Exquisite and urban are the key characteristics of the AE6 design, with the innovative designed front face conveying a compact and elegant visual effect. Dynamic bodywork impresses with its unique and energetic profile, one that speaks to the advanced technology and intelligent nature of AE6.

ZEEHO ORIGINAL URBAN DESIGN

AE6

INNOVATIVE FRONT FACE

- The innovative front face presents a fusion of classic arts and technological design, the svelte silhouette calling to mind an impression of cityscape and elegance at first sight.

DYNAMIC BODY

- The AE6 dynamic body exudes big energy in a diminutive package, much like the impact of a smart, young urbanite. The compact design belies its versatile riding comfort - this lightweight design will accommodate riders of varying sizes and shapes.

MAKE
THE NEXT MOVE+
AE6

- The 4-in-1 lighting system is comparable to automotive-level componentry. Dual-color injection molding contributes to the distinguished contours of AE6 and makes urban riding more eye-catching and visible in traffic.

4-IN-1 LIGHTING SYSTEM

TAIL LIGHTS

- The minimalist design of the tail lights provides a clean, concise appearance, appealing to the eye of modern urban riders.

CLASH-INSPIRED COLOR

- 3 frame colors.
- A lemon green decoration kit is standard, and personalized decoration kits in 5 colors are available as accessories.
- A total of 18 different colour schemes to match your own style.

AE6

SIDE-MOUNTED MOTOR

Peak power: 5.5kW.

- Acceleration is equal to a 125cc petrol scooter.
- The side-mounted motor, electric controller, reducer, and rear flat fork, contribute to a concise design. Coupled with the single-sided swingarm, this intelligent design is lighter weight while opening up the cockpit for more rider space.
- Blacked out aluminum alloy material offers a distinct edgy look.

EXTRA BATTERY EXTENDED RANGE

 x2

The optional second battery enables longer range.
AE6 will confidently deliver you to your destination.

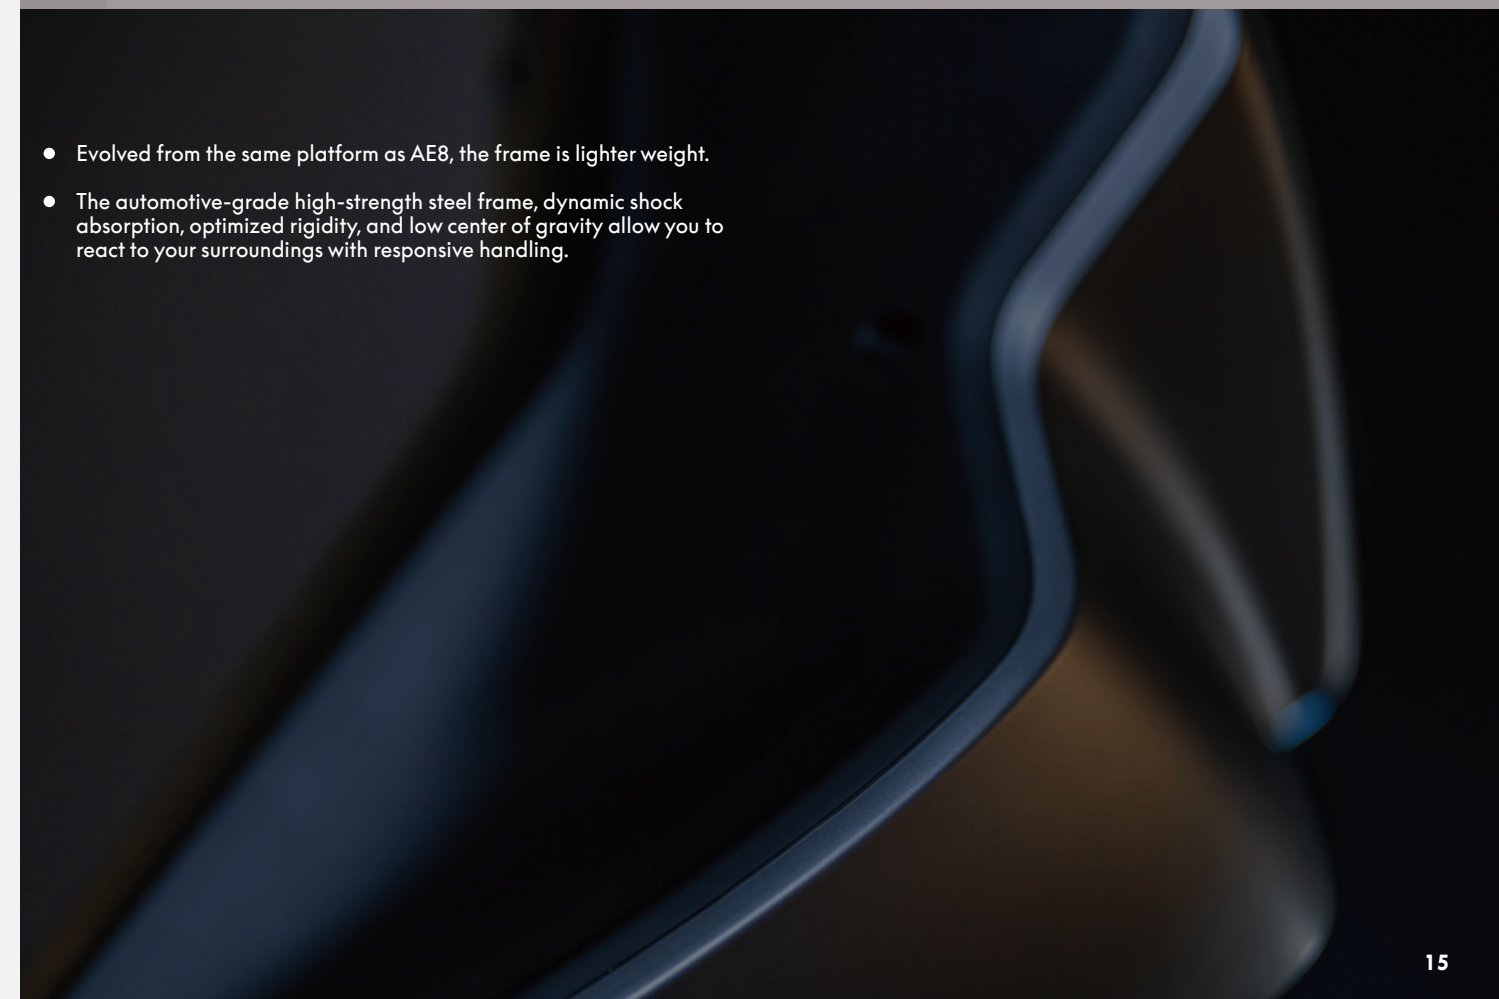

- **Z-Charger**
520W charging: 20%-80% in 2.3 hours, 0-100% in 4.2 hours.
Three-stage charging technology: trickle mode, constant current mode, constant voltage mode.
- **Z-Energy**
Battery management system supports self-dignosis, electrical protection and OTA functions.
- **Adjustable Energy Recovery**
The level of energy recovery can be set in ZEEHO RIDE App to achieve different energy recovery effects.

HIGH-DENSITY FRAME DESIGNED FOR OPTIMIZED RIGIDITY

- Evolved from the same platform as AE8, the frame is lighter weight.
- The automotive-grade high-strength steel frame, dynamic shock absorption, optimized rigidity, and low center of gravity allow you to react to your surroundings with responsive handling.

HIGH-DENSITY AND OPTIMIZED-RIGIDITY FRAME

- Evolving from the AE8 platform, the AE6 frame is lighter weight. Navigate the urban jungle with responsive handling from the automotive-grade high-strength steel frame, dynamic shock absorption, optimized rigidity, and low center of gravity.

EASY RIDE

Enhanced human-to-vehicle interaction, and quick start, supporting a more effortless interactive experience.

- Bluetooth unlock
- APP unlock
- NFC card unlock
- Automatic hold
- Adjustable seat sensor

OTA FIRMWARE UPGRADE

- OTA firmware upgrades in real time to ensure your AE6 is always up to date for leading-edge performance.

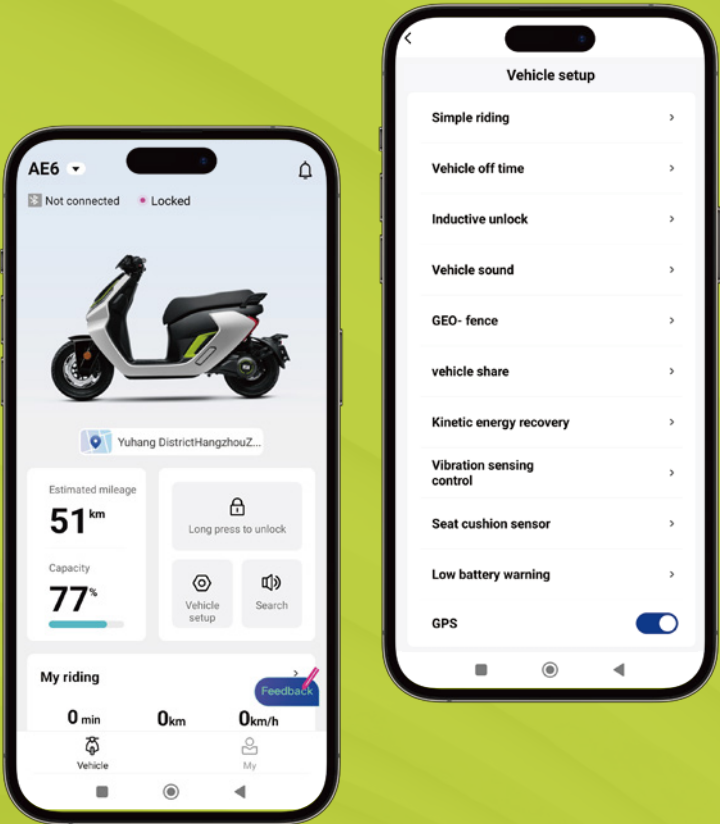

INTELLIGENT INTERACTION

5-inch LCD HMI and ZEEHO RIDE personalized settings to customize your riding experience.

3 riding modes:
ECO, STREET and SPORT

Adjustable intelligent settings:
Sound effect volume
Kinetic energy recovery
Follow Me Lights
Bluetooth connection distance (est. Q2, 2024)

MULTIFUNCTIONAL POSITIONING SENSOR

- 360° Anti- theft Protection: adjustable vehicle alarm sensitivity.
- SOS: accident detection technology.
- Receive active warning of a possible collision.
- If AE6 detects a collision or senses it has been overturned, it will activate an emergency notification via SMS.

- Unlock more usage scenarios
